

Toll Brothers' Gibraltar Capital and Asset Management and Deutsche Bank Complete Private Transaction to Acquire Real Estate Loan Portfolio

March 31, 2011

HORSHAM, Pa., March 31, 2011 (GLOBE NEWSWIRE) -- A venture between Gibraltar Capital and Asset Management, LLC ("Gibraltar"), a wholly owned subsidiary of Toll Brothers, Inc., and Deutsche Bank, today announced the closing of a private transaction with a large financial institution.

The transaction involves the purchase of a portfolio consisting of 83 non-performing loans with outstanding balances totaling approximately \$200 million. The assets are located in nine states and Washington D.C. and the average loan size is approximately \$2.4 million. The portfolio consists primarily of residential acquisition, development and construction loans secured by properties at various stages of completion. Gibraltar acquired a majority interest in the venture and will be the portfolio manager conducting the day-to-day management and workout of the portfolio.

Douglas C. Yearley, Jr., Toll Brothers' chief executive officer, stated: "We are pleased to join with Deutsche Bank to purchase this portfolio. Deutsche Bank's financial resources and structuring expertise coupled with Toll Brothers' proven ability to underwrite, workout, and create value in real estate across the nation makes this an exciting transaction.

"This is Gibraltar's second portfolio transaction involving real estate assets which now total nearly \$2 billion. We continue to seek opportunities to leverage Toll Brothers' expertise, relationships, well-known brand name, nationwide presence and capital access to undertake complex transactions where we can maximize the value of underperforming real estate assets."

Ben Bianchi, Managing Director and Head of Deutsche Bank's Special Situations Group, stated: "The opportunity to combine Deutsche Bank's financial strength and institutional relationships with Toll Brothers' operational expertise made for a natural fit. There is a tremendous volume of distressed debt in the regional bank space that needs to be worked through and this unique partnership is well positioned to benefit from this trend."
